Become a Certified ISO 31000 Risk Management Professional now!

This [3-day Risk Management training](#) enables you to become a Certified ISO 31000 Risk Management Professional. Both the training and the exam are based on the ISO 31000 Risk Management standard which can be used by private and public organizations of any size, industry or sector. In this intensive 3-day training you develop the competence in the foundations of the ISO 31000 Risk Management Standard.

By means of in-depth training, practical exercises and sample multiple-choice questions, you will acquire the necessary knowledge and skills to successfully pass the official exam. You will become familiar with the vocabulary, principles, framework and risk management process, proposed in the ISO 31000 Standard.

During the training, the general ISO 31000 Risk Management Principles and Guidelines will be presented and its 2 companions, the ISO Guide 73 Risk Management – Vocabulary and the ISO 31010 Risk Management – Risk Assessment Techniques.

ISO 31000 learning objectives

In this [ISO 31000 Risk Management certification programme](#) you will learn to:

- understand the vocabulary, principles, framework and risk management process in accordance with ISO 31000;
- understand the benefits of ISO 31000 as an internationally recognized standard, adopted by over 40 countries; and
- acquire the competence to communicate effectively about ISO 31000 with people having different backgrounds and experience in the field of risk management.

Exam and certification

The exam to become a [Certified ISO 31000 Risk management professional](#) meets the requirements of the ISO 17024 standard designed to harmonize the certification process of personnel worldwide. The exam covers the following five competence domains:

- Fundamental concepts
- Terms and definitions
- Principles of risk management
- The risk management framework
- The risk management process

www.nyeeventslist.com

The ISO 31000 exam consist of 80 multiple-choice questions and takes 2 hours. You need to answer 75% of the questions correctly to pass the exam. The official Certified ISO 31000 Risk management professional certificate will be issued to participants who successfully pass the exam and comply with all other requirements related to this credential.

G31000 – the global platform for ISO 31000

[The certified ISO 31000 exam](#) (foundation level) will be verified by the G31000 (Global Institute for Risk Management Standards). G31000 is an international non-profit association and *the* global platform for ISO 31000. It meets the requirements of the ISO 17024 standard, designed to harmonize the certification process of individuals worldwide.
