Venue :

Location JN Tata Auditorium, National Science Seminar Complex, IISc Campus, CV Raman Avenue, Bangalore, INDIA, Bangalore, US,

ou are invited to the IVEC-2011 to be held during February 21 - 24, 2011, in Bangalore, India. The IEEE-IVEC is a major annual gathering of vacuum electronic device and system professionals, which is held alternately in US and Europe/ Asia. The conference will commence with a Plenary session where eminent experts will focus on the scientific and technological strides that are driving the current and future directions in vacuum electronics research. Subsequently, a number of oral and poster sessions will present current interests in theory and computational tool development, active and passive components, systems, and supporting technologies focusing the topical spectrum of scientific and commercial applications spanning the range from UHF to THz frequencies. The meeting will be configured to maximally disseminate useful information to device users, manufacturers, academics and students. System developers will also find a unique snapshot into the state-of-the-art in vacuum electronic devices for electronic systems encompassing radar, electronic warfare, digital broadcasting, high data-rate communications, medical applications and RF accelerator technology for high energy physics. The meeting and social events will provide a unique opportunity to renew or establish new friendships with colleagues, interact with customers and end-users and meet students and academic researchers.
