Grant Lindahl is a very famous Artist banned from MoMA PS1 because of a super small fire no big deal. He moved his extreme psychadelic performance art sketch show to the comedy venue down the street. Each month is a different story and theme with standup and characters performances inbetween the plot. The show is extremely visual with cartoons, puppets, and practical special effects. Come get free beer and watch cool underground crazy dope art school acid shit.

This months theme is Psychics! so come see the Mind Patrol solve a crime wave the likes the world has never seen.
