### ABOUT THE COURSE

Simpliv is offering the comprehensive AWS certification training created by industry experts. The entire AWS training course is in line with clearing the AWS Certified Solutions Architect exam. You will learn the various aspects of AWS like Elastic Cloud Compute, Simple Storage Service, Virtual Private Cloud, Aurora database service, Load Balancing, Auto Scaling and more through hands-on projects and case studies. You will be able to implement AWS best practices.

**Who is the target audience?**

Programmers, Developers, Technical Leads, Architects, Freshers, Data Scientists, Data Analysts, Business Intelligence Managers.

**Basic knowledge:**

- A basic understanding of running commands in Linux.
- Familiarity with Linux concepts like networking, software repos and storage.
- Familiarity with concepts related to deploying applications.
- Experience with managing systems/applications/infrastructure or with deployments/automation.
