We Network Differently! We provide hosts at every event to help make introductions among our attendees. You'll see them wearing "Host" name badges so just say hi and tell them who you'd like to meet. We help you create new business relationships. Guaranteed!

Meet a high caliber of individuals and company attendees including: professionals, executives, business owners, investors, lenders, entrepreneurs and startups from a diverse range of industries.

We focus on helping you create long term relationships, not just hard sell products and services. Build social capital among members of our New York community on an ongoing basis. We encourage you to leverage these relationships to enhance the value of our events and your business.
