

Machine Learning with Python(40%OFF)

Date : Mar 02, 2019 - 07:00 AM - Apr 27, 09:00 AM

Event URL : <http://www.nyeeventslist.com/events/machine-learning-with-python-40-off-mar-2019>

Organizer : Simplivllc

Venue : Online Classroom

Location : 161, Mission Falls Ln
Fremont, CA, USA, ZIP: 94539
Phone: 5108496155

Learn to use Python, the ideal programming language for Machine Learning, with this comprehensive course from Simpliv. Gain expertise in core areas of Python and Machine Learning, such as algorithms, model evaluation, supervised vs. unsupervised learning, reinforcement learning, neural networks, k-nearest Neighbor Classifier, Naive Bayes Classifier, and lots more. Become a complete Machine Learning and Python pro. Our experts will show you how to use your knowledge of Python to learn to use it for Machine Learning. All you need is basic knowledge of Python. Our course will take it up from there and make you an expert.

Who is the target audience?

Programmers, Developers, Technical Leads, Architects, Freshers, Data Scientists, Data Analysts, Business Intelligence Managers.

Basic knowledge:

There are no hard pre-requisites. However, basic understanding of Computer Programming terminologies is beneficial.

Curriculum

Python Introduction

- Introduction to Python
- Core programming concepts
- Objects in Python
- Visualizations in Python

www.nyeeventslist.com

- Packages in Python
- Matrix operations
- Dataframes

Machine Learning

- Data Pre-processing
- Regression
- Classification
- Clustering
- Association Rule
- Natural Language Processing

Price: \$1 16665 (Enroll Today and Get Flat 40% OFF)

New Batch starts from 2nd Mar. 2019 Days: SAT-SUN (8-Wks) 07:00 AM - 09:00 AM (IST)
