## Medicare Conference 2018

CMS has published extensive long-term and short-term changes to Medicare plans for 2017 and beyond, including a new payment model, a stronger audit and enforcement strategy, and a greater emphasis on integrated care coordinated by health plans and healthcare providers. With the inauguration of a new president and the enactment of sweeping MACRA changes, 2017 will inevitably disrupt the healthcare landscape.

After a year of extensive political and healthcare change, **Medicare Conference 2018** will convene healthcare systems and insurers to exchange learned best practices for stabilizing costs, integrating care and encouraging patients to proactively manage their own health, all while adjusting to CMS' new regulations, payment models and stricter audits

## Top Five Reasons to Attend

1. Identify the impact of the MACRA Quality Payment Program on Medicare Advantage star ratings
2. Explore innovative models that capitalize on the shift to value-based care
3. Coordinate physician and insurance care to nurture a better patient experience, increase star ratings and decrease expenditures
4. Uncover learned best practices to collaborate as physicians and payers on MACRA
5. Create an internal culture that uses member, agent and provider feedback to drive sales and marketing
