No Barriers Warriors improves the lives of veterans with disabilities through curriculum-based experiences in challenging environments.

No Barriers Youth is the premier educational program challenging young people to contribute their absolute best to the world. We do this through transformative experiences, classroom tools, and real-world inspiration.

OUR HISTORY

Our history began in 2003 when two separate teams of individuals launched organizations designed to change people's lives by providing transformative educational experiences. One, No Barriers USA, started by working with adults and children with disabilities while the other, Global Explorers, reached middle and high schools students. Both believed that by taking people out of their comfort zones and exploring the world, you could forever shift the lens through which they saw and navigated their lives. Here's the story of how the paths of these two organizations eventually united to become one.
