The CISO New York Summit

is a chance for CISOs and IT security executives in New York to meet with peers from various industries, including, but not limited to, health care, finance, insurance, government, telecom, utilities and education. This interactive summit features engaging keynote speeches, open forums, think tanks, case studies and panel discussions on the latest information security topics and trends. Open discussions and networking time give attending CISOs and information security executives the opportunity to discuss common problems and discover new and innovative solutions. Attendees ultimately leave the event with new business contacts and new ideas on how to move their businesses forward.
