The Conference theme : Creating a unified foundation for the Sustainable Development: Research, Practice and Education

The 8th ICSD 2020 will be an excellent opportunity to share your ideas and research findings relevant to the Sustainability Science, through the European network of academics.

This interdisciplinary forum is for scholars, teachers, and practitioners from any professional discipline who share an interest in—and concern for— sustainability in an holistic perspective, where environmental, cultural, economic and social concerns intersect.

Papers will be published in Open Access EJSD Journal (Thompson Reuters) and Proceedings.

This ambition will proceed in a multidisciplinary way across the various fields and perspectives, through which we can address the fundamental and related questions of Sustainable Development.

We invite you to submit an abstract in the range of the following streams within the **ICSD 2020** program:
